Additional Requirements

All work must be performed by a Home Upgrade Participating Contractor. Additional details and restrictions apply. Learn more online, by asking your Participating Contractor, or by calling (877) 785-2237.

- | |
|--|
| • A carbon monoxide detector must be present or installed on each floor. |
| • Testing must be performed after work is completed to ensure quality and occupant safety. |
| • The home must have a minimum of 10% energy savings or measure rebate value of \$2,000 or greater. |
| • Rebate and incentive amount can be a maximum of 50% of the total project cost, up to a \$3,000 cap. |
| • Projects that include central air conditioning or a heat pump, or their related fans, must submit proof of permit closure. |

Energy Upgrade California® Home Upgrade provides assistance and incentives for home improvement projects that can reduce energy use and make homes more comfortable. This statewide program is managed locally by utilities and regional energy networks and directed by the California Public Utilities Commission in collaboration with the California Energy Commission. Funding comes from utility customers under the auspices of the California Public Utilities Commission. Incentives are offered on a first-come, first-served basis and are effective until funding is expended or the program is discontinued. Programs may be modified or terminated without prior notice. Trademarks are property of their respective owners. All rights reserved.

The Energy Network is administered by the County of Los Angeles and funded by California utility ratepayers under the auspices of the California Public Utilities Commission.

Home Upgrade

Energy Upgrade California®

Calculate Your Home Upgrade Rebate

Choose any three (or more) measures to get started.

Supported through statewide energy efficiency funds, Home Upgrade rebates and incentives can help you take the next step toward more comfortable, healthy living.

Improve your comfort and indoor air quality

Increase your home's energy efficiency

Invest in your home and increase its value

Earn rebates & incentives

What resources are available?

Home Upgrade includes two levels of rebates and incentives.

- **Home Upgrade** offers up to \$3,000 in rebates and incentives for pursuing three or more energy efficiency upgrades from a menu of options. (See next page.)
- **Advanced Home Upgrade** offers rebates and incentives for pursuing a comprehensive, customized energy efficiency upgrade. Contact your utility provider for more information.

The Energy Network also offers low-interest financing for rebate participants. Learn more: <http://tenres.com/homeupgrade>

Who can participate?

Rebates are available statewide, but vary based on the local utility provider. This brochure applies to homeowners of single-family detached homes in Los Angeles County who are customers of both Southern California Edison and Southern California Gas Company®.

Single family detached home

Customers of both Southern California Edison **and** Southern California Gas Company

Located in Los Angeles County
